B2012 MARKET COMMENT

Taking into account the recent difficult international trading conditions experienced during the previous 2 cape sales (volatility of exchange rates) it was felt the 2nd AMMO sale season for 2012 performed satisfactorily, especially regarding the high clearance rate of 99.2% i.e 11 lots were unsold at the conclusion of the auction, however post sale negotiations saw 10 of the 11 lots sold.

Competition for most types was generally good, surprisingly the good Young Goat and Strong Kids saw strong competition with prices holding reasonably well considering the recent cape trends.
