Australian Mohair Marketing Organisation Ltd

B2021 NEWSLETTER

MARKET REPORT B2021 AUCTION

To say this year has been another challenging year after the previous year's covid 19 worldwide Pandemic would be a huge understatement.

I have always thought of myself to be a glass half full individual (You know every cloud has a silver lining type)

The lockdowns and working from home phenomenon which became a International and domestic situation, actually had a positive effect on mohair prices. As a result of hundreds of thousands of business and professional people working from home there was a massive downturn in the quantity of suits being sold internationally; as a flow on effect the demand for mohair knitwear increased dramatically hence the huge increase in prices.

International and domestic supplies of mohair continue to be of major concern to all involved. We must collectively as an industry address this problem as soon as possible.

The Australian Mohair Marketing Organisation Auction held 15-10-2021 records have been broken again. The overall average auction price per kg of 3465 cents (greasy) has eclipsed the previous AMMO record set in April 2021 by 460 cents per kg.

The record prices and 100% auction clearance were as a result of very spirited bidding due to a strong ongoing international demand and low international supply levels.

Listed below are prices quoted in cents per kg, greasy. Microns listed are actual test result ranges of Auction lots.

FFKID (23.5 to 24.3 micron)

Average price 5886

FKID (23.5 to 25.8 micron)

Average price 5356

CKID (27.4 micron)

Average price 4910

FFYG (28.3 to 28.9 micron)

Average price 4820

FYG (26.3 to 29.1 micron)

Average price 3978

FFH (29.9 to 31.2 micron)

Average price 3075

Craig Clancy (Warehouse Manager)

FH (31.9 to 33.8 micron)

Average price 3802

H (35 micron)

Average price 2990
